

GROWING IMPACT, REACH IN OUR 25th YEAR

2017 ANNUAL REPORT

EAST COAST GREENWAY ALLIANCE

Special report insert:
East Coast River Relay

Reaching new heights, because that's what's needed

We turned record generosity from people like you into the biggest programs in our organization's history and increased staffing to the scale that our 3,000-mile project needs. We engaged over 200 organizational partners and 6,300 participants in the River Relay not just for the sake of growth. We ushered in a new phase of organizational strength and networked partnerships designed to face today's challenges to our environment, health, and communities.

We plan to continue our momentum in 2018, staying ahead of our Strategic Plan goals and developing this 15-state infrastructure project into the most popular park in America. We aim to rise to the challenges ahead, buoyed by hope as we deploy smart strategy to get the Greenway done. Together, we can transform the way people get to work, school, and play and deepen their relationship with nature throughout the Eastern Seaboard and beyond!

Dennis Markatos-Soriano, Executive Director

To build it, we need to think big — and we need your voice

We have the vision, the will, and the expertise to make our 3,000-mile East Coast Greenway a reality. What we don't have is the \$2,000,000,000 needed to build the Greenway's final two-thirds over the next 20 years.

Building greenways is a big investment: It costs an average of \$1 million per mile. Individual philanthropy enables us to plan and to organize and to advocate. The type of money needed to complete the Greenway will come from our collective efforts and government allocations. We need more local, state, and federal dollars to finish the work. Please make your voices heard and advocate for greenways in your neighborhood, town, and state. And let us know how we can help. Working together, we can do this.

Robert Spiegelman, Chair, Board of Trustees

HOW THE EAST COAST GREENWAY GREW IN 2017

We celebrated our 25th anniversary in 2017 while adding miles and raising our profile.

Percent of Greenway
on protected trail

Percent of Greenway complete by state

New East Coast Greenway sections designated in 2017

1. Coastal Connector, Topsham, Maine, 0.65 miles
2. Central Rail Trail, Wayland, MA, 0.5 miles
3. Blackstone River Greenway, MA/RI line, 3.7 miles
4. Blackstone River Greenway, Providence, RI, 0.7 miles

5. Air Line State Park, Chaplin/Hampton, CT, 6.4 miles
6. Hop River Trail extension, Coventry, CT, 0.5 miles
7. Great River Park, East Hartford, CT, 1.5 miles
8. Bushnell Park connector, Hartford, CT, 0.21 miles
9. Farmington Canal Heritage Trail, Farmington, CT 2.39 mi
10. Farmington Canal Heritage Trail, Southington, CT, 0.56 mi
11. Rahway River Park Trail, Rahway, NJ, 1.64 miles
12. K&T Trail, Philadelphia, PA, 1 mile
13. Bartram's Mile, Philadelphia, PA, 0.5 miles
14. Rt. 291 sidepath, Tinicum Township, PA, 0.63 miles
15. Cross County Trail, Fairfax County, VA, 1.9 miles
16. Spanish Moss Trail, Beaufort, SC, 3.5 miles
17. Timucuan Trail, Duval County, FL, 1.1 miles
18. Neptune Beach Trail, Neptune Beach, FL, 0.8 miles
19. Sweetheart Trail, Daytona Beach, FL, 1 mile
20. Edgewater SJR2C Trail, Edgewater, FL, 1.2 miles
21. ECRTT, Brevard to Titusville, FL, 8 miles
22. Savannas Trail, Ft. Pierce, FL, 1.25 miles

East Coast

Greenway
ALLIANCE

2017: A year of ambitious programs, big impact

Opening panel on philanthropy and greenways (from left): Shaheen Syal of Z. Smith Reynolds Foundation, Atiba Mbiwan of Zeist Foundation, Kathy Higgins of Blue Cross Blue Shield NC Foundation, and Andy Johnson of William Penn Foundation.
Below: Networking after keynote address from Chuck Flink.

Southeast Summit energizes greenway leaders

Our three-day Southeast Greenways & Trails Summit in Durham, NC, inspired 300 advocates and partners to do more in their communities. The gathering featured mobile workshops and active options along with a packed slate of

presentations. The Summit featured the unveiling of an Alta Planning+Design study, sponsored by GSK, finding that the East Coast Greenway generates \$90 million in benefits annually for North Carolina's Triangle region.

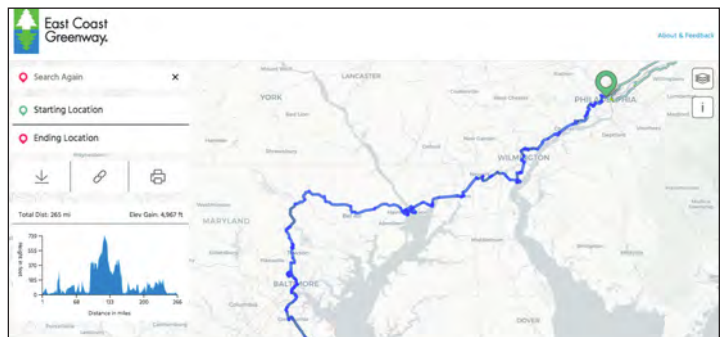

Staff added to better cover South

Adding two new greenway coordinator positions in Florida and South Carolina/Georgia in 2017 builds the Alliance's capacity to engage with communities throughout the Southeast. Meet our team online: greenway.org/about/our-team

A 3,000-mile 25th birthday party

Thanks to coordination by Mary Beth Powell, East Coast River Relay program manager, we put on our organization's largest programming to date. Read more in our River Relay report (center insert).

Map tool, greenway.org updated

We updated our website and online mapping tool in 2017, focusing on meeting the needs of the increasing numbers of people who want to experience the East Coast Greenway. Both sites are mobile- and tablet-friendly.

Financial report

The generosity of our supporters continued to grow in 2017 as revenue grew 9 percent — thank you! Despite a reduction in overall net assets, our unrestricted cash and equivalents rose to a new record high and we maintained financial health with more than six months of resources available.

2017 REVENUE

2017 EXPENSES

2017 FINANCIAL SUMMARY

Total revenue.....\$1,138,178
 Total expenses.....\$1,214,314
 Net assets, 12/31/17.....\$782,618

Our full audited financial report and Form 990 was completed by Langdon & Company, LLP, and is available at greenway.org or on request.

FALL 2017

Expanding partnerships, forging ahead

Every once in a while, it's good to take a big risk to see what we can achieve. We did that in the fall of 2017: We celebrated our 25th anniversary by hosting a continuous 57-event series throughout our entire corridor in collaboration with over 200 organizations — the biggest program in our history.

Thanks to the focus and dedication of Relay Program Manager Mary Beth Powell and crucial work by everyone on our team, we surpassed our goals and expanded partnerships that can help us complete the Greenway in the next 25 years. As someone who grew up enamored by creeks and rivers, it was a dream to celebrate the 50 beautiful rivers our Greenway provides access to for tens of millions of Americans and visitors from around

THANK YOU TO OUR RIVER RELAY SUPPORTERS

cleanup, Wilmington, NC

Shoreline cleanup &
stabilization, Daytona
Beach, FL

RIVER STEWARDSHIP: Throughout the Relay, we honored the 50 key rivers along the East Coast Greenway. With walks, paddles, talks, and more, we celebrated rivers that have made impressive comebacks—Boston’s Charles River, the mid-Atlantic’s Delaware River—and called attention to rivers that are struggling—the Neuse and Cape Fear in North Carolina, Indian River Lagoon in Florida. We look forward to continued collaboration with our river-keeper and watershed partners.

“We collaborated to promote the River Relay and our annual River Days, helping both organizations reach larger audiences. Connecting trails and waterways helps build constituencies dedicated to environmental awareness and conservation.”

— BRIAN DUVALL, ALLIANCE FOR WATERSHED EDUCATION
OF THE DELAWARE RIVER

Climate change/resiliency

Collecting Hudson River sample in New York City: Dennis Markatos-Soriano, ECGA executive director, and Michael Oppenheimer, Princeton University professor of geosciences and international affairs

“The East Coast Greenway is one of the many projects our country and world needs to invest in to reduce emissions, adapt to rising sea levels, and tackle the challenge of climate change.”

— PROF. MICHAEL OPPENHEIMER, GLOBAL CLIMATE EXPERT

COASTAL RESILIENCY: Our Relay bike/walk tour with Hoboken, NJ, officials looked at the city’s response to flooding—and the role that greenways can play. Since the 2012 mega-storm Sandy’s record tides soaked the city, leaders have adopted tactics to manage heavy rainfalls and sea surges that include building “resiliency parks” with porous surfaces on top of huge collection tanks to temporarily store large quantities of water. Our tour ended at the Hudson River Waterfront Walkway on the Greenway, where landscaping on the piers increase absorbent surfaces and reduce runoff.

Event Sampler

Climate lunch & walk with Michael Oppenheimer, New York City

Bike ride from farmers market, Baltimore, MD

Ales for Trails 5K run, Durham, NC

Gilbert Middle School bike rodeo, Jacksonville, FL

Underfit Yoga class at the Underline, Miami, FL

“As native people, as Passamaquoddy, we welcome the East Coast Greenway as a way to help people connect their bodies, hearts, and minds — and to better connect them to the beautiful land around us.”

— DENISE ALTVATER, MAINE WABANAKI PROGRAM, PERRY, ME

INSPIRING WELLNESS, OUTDOOR TIME: A bike safety rodeo in Jacksonville, FL, illustrated how health and environmental advocates make great teammates. We joined the Eastside Environmental Council as they started a bike club at a middle school in a low-income neighborhood along with the city’s Parks and Recreation Department and Health Planning Council of Northeast Florida (Safe Routes to School). University of Florida’s Trauma One unit and North Florida Bicycle Club distributed free helmets; an REI rep shared maintenance tips and showed the students how to fix flat tires. The enthusiasm meter among the students? Off the charts.

Economic development

Myrtle Beach Mayor John Rhodes and former planning director Jack Walker cut ribbon on trailhead

“Trails and greenways improve the overall health of an entire community. Our River Trail gives people a safe, accessible place to exercise, but it also connects businesses to a very active downtown, where we’re excited to see an increase in new businesses developing along the way.”

— DELPHA VERY, DIRECTOR OF ECONOMIC & COMMUNITY DEVELOPMENT, PUTNAM, CT

Event Sampler

American Folk Festival on the Bangor Waterfront, ME

Welcome to NH with Gov. Sununu & other officials, Portsmouth, NH

City leaders’ welcome breakfast, Putnam, CT

Trailhead ribbon cutting, Myrtle Beach, SC

Greenway sign dedication & reception, Titusville, FL

EMBRACING TRAILS: City leaders rolled out the red carpet for a Greenway dedication in Titusville, FL, during the Relay. Since the 1960s, NASA space-related industries and tourism were the city’s economic lifeblood. As investment in the space program ebbs and flows, the city has reinvented itself and is fast earning its nickname, “Trail Town.” Promoting the city as an active travel destination, Titusville leaders point to the East Coast Greenway as a key component of their impressive multi-use trail network.
